AHMED SOROUR

Data Science & AI | Aspiring Agentic AI Engineer

Cairo, Egypt | sorour802@gmail.com | +20 115 492 9027
github.com/Ahmed-Soro | linkedin.com/in/ahmed-sorour-d | Portfolio

PROFESSIONAL SUMMARY

Computer Science student specializing in Artificial Intelligence, with hands-on experience in Machine Learning and Data Science. Proficient in Python, SQL, Pandas and NumPy across the data lifecycle: preprocessing, exploratory analysis and visualization. Building projects centered on feature engineering and model evaluation, and working toward a career in Agentic AI. Analytical, detail-oriented and committed to solving real-world problems with data.

EDUCATION

B.Sc. in Computer Science, Artificial Intelligence Major Expected graduation: 2028

Capital University, Faculty of Computer Science, Cairo, Egypt

Key coursework: Machine Learning, Artificial Intelligence, Probability & Statistics, Algorithmic Analysis, Data Structures, OOP, Database Management.

PROFESSIONAL EXPERIENCE

Data Scientist 2026

Digital Egypt Pioneers Initiative (DEPI)

TECHNICAL SKILLS

Languages: Python, SQL

Data analytics: Data cleaning, preprocessing, exploratory data analysis (EDA), NumPy, Pandas

Visualization: Matplotlib, Seaborn

Statistics: Correlation studies, probability, descriptive and inferential statistics

Machine learning: Scikit-learn, regression, clustering, classification, feature engineering, model validation

Tools: Git, GitHub, VS Code, Jupyter Notebook

Fundamentals: Algorithms, data structures, object-oriented programming

PROJECTS

Exploratory Data Analysis & Processing Python, Pandas, Matplotlib, Seaborn

- Cleaned raw datasets by handling missing values, fixing inconsistencies and treating outliers.
- Ran exploratory analysis to uncover distributions, trends and correlations, summarized with descriptive statistics.
- Produced visual reports that turn complex data into clear, actionable insights.

Machine Learning Implementation Python, Scikit-learn, NumPy

- Built end-to-end machine learning workflows, from data preparation to performance metrics.
- Implemented supervised and unsupervised models, including classification and regression.
- Handled train/test splitting, feature selection and model training, then evaluated and tuned accuracy with standard metrics.

Web Scraping & Data Acquisition Python, BeautifulSoup, Requests

- Wrote scripts to collect public web data for analysis.
- Parsed raw HTML into structured formats and prepared it for cleaning and statistical processing.

CERTIFICATIONS

AI for You Certification, Oracle Academy 2026

SOFT SKILLS & LANGUAGES

Professional strengths: Structured problem solving, critical analysis, teamwork, clear communication, time management, public speaking, continuous learning

Languages: Arabic (native), English (intermediate, professional technical)
